Reconstructive Surgery Chapter Release

We are pleased to announce the release of the Reconstructive Surgery chapter! Released on November 19th, it marks the 10th OMSKU V chapter. Comprised of eleven content sections, it offers 10 CDE/CME credits. Thank you to chapter editor Dr. Rui Fernandes and all the contributing authors!

Patient Assessment

The Patient Assessment chapter is currently under development with Centrax. We expect this chapter to be released before the New Year.

OMSKU in 2016

We expect the final two chapters, Orthognathic and Trauma, to be released in January. In addition, AAOMS has signed a hosting agreement with Centrax to continue to host and support OMSKU V through 2016.
