AAOMS

Reconstruction Chapter Release This Month!
The tenth OMSKU V chapter, Reconstructive Surgery, will be released this month! Look for it during mid-September, although we will make a formal announcement once it is live.

Next up, the Patient Assessment chapter! This chapter will be released in October. To follow before the end of this year, Trauma and Orthognathic chapters.

OMSKU V at Annual Meeting

The AAOMS Annual Meeting in Washington, DC is just a few weeks away. If attending, be sure to look out for some OMSKU promotion! In particular, the Exhibit Hall Tech Bar will be prepared to demo OMSKU V and answer attendee questions. You will also see OMSKU signage and promotion in the ballrooms between sessions.

Current Sales As of 9/1/2015
